## GOLDSTAR AQUA GOLD

---

### Type:

Goldstar "AQUA GOLD" is water based high quality coating designed for exterior walls exposure to rain and weather. It is formulated with special latex based on silicon polymers for hydrophobicity in combination with acrylic co-polymer which gives excellent water repellency, adhesion and long term durability. The film get cross linked on curing which gives excellent beading effect along with high water vapor permeability. The film is also having excellent anti-algal, anti-fungal & self-cleaning properties to remain beauty of paint film for long run.

### Salient Features:

- 10 years warranty (Condition apply),
- Excellent water repellent & Beading effect,
- High solids with breathable film
- No cracking
- Alkali resistance
- Excellent Algae and fungal attack
- Best light fastness
- Excellent weatherability
- Low smell
- Self cleaning property
- cost advantages

### Field of Application:

Although it's made for exterior wall finishes, It can also be used on interior various types of dry surfaces like plaster, concrete building board, bricks, cement, and stone for smooth finishes.

**Technical Information:**

Finish	: Smooth finish
Color	: White
Drying Time	: Surface dry - 30minutes, Recoating - 4 hrs
% OF solids	: 56±2%
Coverage	: 8 – 10m <sup>2</sup> / liter / coat depending of surface
Specific gravity (g/cm <sup>3</sup> )	: 1.35 ± 2%
Thinner for mixing	: 10%
Flash Point	: Non - flammable
Surface Preparation	: Ensure that surface is clean, dry and free from all loose powder.
Packaging	: 20ltr
Storage	: Store in a cool & dry place.
Shelf Life	: 1 year.
Health & Safety	: Refer our Material safety data sheet.
Precautions	: Keep the container closed after use. Do not intermix with other products.
