

SAFETY DATA SHEET

DATA SHEET NO. WF008/09

	DATA SILLI NO. WI 000/05		
1 PRODUCT IDE	TIFICATION AND COMPANY NAME		
Product Name Product Identificatio Supplier/Manufactu Address			
2 COMPOSITION	/INFORMATION ON INGREDIENTS		
Resin Base Hazardous Compone Ethanol/IMS Xylene Isocyanate Curing Ag R Phrases S Phrases Classification	<10% CAS No 64-17-5 <10% EC No 649-405-00-X		
3 HAZARDS IDEN			
Physical/Chemical H Human Health Haza	rds: Respiration: May cause irritation, dizziness, nausea and loss of consciousness.Eyes: May cause moderate irritation.Ingestion: May cause gastro-intestinal irritation, dizziness, nausea and loss of consciousness.Skin: May cause sensitization. May also be a skin irritant and repeated contact may increase this effect.		
Environmental Haza	irds : Toxic to aquatic organisms. May cause short-term adverse effects in the aquatic environment.		
4 FIRST AID MEASURES			
g Inhalation : M b	n all cases of doubt, or when symptoms persist, seek medical attention. Never live anything by mouth to an unconscious person. Nove to a safe area with fresh air. Keep person warm and at rest. If not reathing, if breathing is irregular or if respiratory arrest occurs, provide artificial espiration or oxygen by a trained person. Give nothing by mouth. If		
Eye Contact : F Ingestion : C ir Skin Contact : F	inconscious, place in recovery position and seek medical advice. Rinse thoroughly with potable water for at least 10 minutes. To not induce vomiting. Keep person warm and at rest. Seek medical advice mmediately and show this Safety Data Sheet to the medical officer. Remove contaminated clothing and shoes. Wash skin thoroughly with soap and vater or use a recognized skin cleanser. Do not use solvents or thinners.		

Extinguishing Media : Use foam, CO2, dry powders and water mist. Do NOT use a high pressure water jet. Recommendations : Decomposed products are a health hazard. Use appropriate breathing apparatus. Cool closed containers exposed to fire with water to prevent ignition. G ACCIDENTAL RELEASE MEASURES Personal Precautions : Ventilate the area. Avoid breathing in vapours. Remove all sources of ignition e.g. flames, sparks, static electricity and heat. Spill : Contain and collect spillage with absorbent material. Dispose of according to local regulations. Do not allow spillage to enter sewerage drains or watercourses. <i>Mandeling</i> : Keep container tightly closed. Keep away from heat, sparks and flame. Eating, drinking and smoking should be prohibited in area where this material is handled, stored and processed. After handling the material, workers should wash hands and face before eating, drinking and smoking. Always comply with health and safety regulations. Storage : Store in original container. Observe label precautions. Store in a cool, well-ventilated area away from incompatible materials and ignition sources. Keep away from widding and smoking. Containers which have been opened must be carefully resealed and kept upright to prevent leakage. d EVPOSURE CONTROL/PERSONAL REOTECION Engineering Measures : Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solevent upouro below with 60 CL, suitable respiratory prot	5 FIRE-FIGHTING MEASURES		
Personal Precautions : Ventilate the area. Avoid breathing in vapours. Remove all sources of ignition e.g. flames, sparks, static electricity and heat. Spill : Contain and collect spillage with absorbent material. Dispose of according to local regulations. Do not allow spillage to enter sewerage drains or watercourses. 7 HANDLING AND STORAGE Handling : Keep container tightly closed. Keep away from heat, sparks and flame. Eating, drinking and smoking should be prohibited in area where this material is handled, stored and processed. After handling the material, workers should wash hands and face before eating, drinking and smoking. Always comply with health and safety regulations. Storage : Store in original container. Observe label precautions. Store in a cool, well-ventilated area away from incompatible materials and ignition sources. Keep away from oxidizing agents, strong alkaline and acids. No smoking. Containers which have been opened must be carefully resealed and kept upright to prevent leakage. 8 EXPOSURE CONTROL/PERSONAL PROTECTION Engineering Measures : Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solvent vapour below the OEL, suitable respiratory protection must be worn. Personal Protective Equipment : Should ventilation be inadequate or if workers are exposed to concentrations above the exposure limit, appropriate certified respirators must be used. Eyes : Use safety eyewar designed to protec		 pressure water jet. Decomposed products are a health hazard. Use appropriate breathing apparatus. Stability: Stable under recommended storage and handling conditions.Conditions to Avoid: Ignition sources, flames, sparks, static and heat.Materials to Avoid: Oxidizing agents, strong alkaline or acidic materials.			

SAFETY DATA SHEET

DATA SHEET NO. WF008/09

11 TOXICOLOGICAL INFORMATION

- Frequent and prolonged skin contact may cause irritation and skin inflammation.
- Prolonged inhalation of vaours in high concentrations may lead to headache, giddiness and nausea.
- In case of contact with the product, danger of absorption through the skin, irritation of the skin/mucous membranes.

12 ECOLOGICAL INFORMATION

- There is no data available on the preparation itself.
- Product is considered a water pollutant. Do not allow to enter drains or watercourses.

13 DISPOSAL CONSIDERATIONS

- Do not allow to enter drains or watercourses.
- Dispose according to state and local applicable regulations.
- Empty containers are suitable for recycling.

14 TRANSPORT INFORMATION

Not classified as dangerous for transport.

15 REGULATORY INFORMATION

Classification: Harmful, Xn

R11	Highly Flammable	
R20/21	Harmful by inhalation and contact with the skin	
R34	Causes Burns	
R38	Irritating to the skin	
R39	Danger of very serious Irreversible effects	
R43	May Cause Sensitization by Skin Contact	
R45	May Cause Cancer	
R65	Harmful- may cause lung damage if swallowed	
S1/2:	Keep locked up/out of reach of Children	
S13	Keep away from food, drink and animal feed stuffs	
S24/25	Avoid Contact with Skin/eyes	
S43	In case of fire, use water, fog, foam or powder-do not use water jets	
S62	If swallowed, do not induce vomiting but seek medical advice	
	Immediately	

16 OTHER INFORMATION		
Date of Printing Date if Issue Version Notice	 November 2013 November 2013 1 The information in this MSDS is based on the present state of our knowledge and on current national laws. The product is not to be used for purposes other than those specified under section 1 without first obtaining written handling instructions. It is always the responsibility of the user to take all necessary steps in order to fulfill the demand laid down in the local rules and legislation. The information in this MSDS is meant as a description of the safety requirements of our product – it is not to be considered as a guarantee of the product's properties.
