

GOLDSTAR STAR BINDER

Type	:	"Star Binder" is a water based primer which forms protective barrier to prevent chalking & breakdown of paint film due to saponification.
Salient Features	:	Good on interior (new / old) surfaces), Inter-coat adhesion & *Alkali Resistance
Field of Application	:	Can be used on new plaster, concretes, asbestos or any other substrate.

Notes * It shall be noted that although Star Binder offers an effective barrier over a surface of reasonable alkalinity. The excessive alkaline surfaces should be initially treated with breathing type emulsion paint for a period of one year. The inside water leakages must be stopped before application.

Technical Information:

Finish	:	Smooth Finish
Gloss	:	SI Sheen
Color	:	White
Drying Time	:	Touch dry – 30 minutes, hard dry – 4 – 6 hrs
% of solids	:	34± 2 %
Coverage	:	12 – 15 m ² / liter/ coat, depending on surface
Flash point	:	Not Applicable
Specific gravity	:	1.06 -1.08
Thinner	:	Clean water (For mixing, cleaning & brushing)
Surface Preparation	:	Routine: Ensure that surface is clean, dry and free from all loose Particles and thoroughly clean before applying
Application	:	By Brush
Packaging	:	4 liters / 20 liters
Storage	:	Store in a cool & dry place
Shelf Life	:	1 year
Health & Safety	:	Refer our Material Safety Data Sheet
Precautions	:	Keep the container closed after use. do not intermix with other products.
